

§ 701.51

be as prescribed in 31 U.S.C. 3717. DON activities should verify the current interest rate with respective finance and accounting offices. After one demand letter has been sent and 30 calendar days have lapsed with no payment, DON activities may submit the debt to respective finance and accounting offices for collection.

§ 701.51 Refunds.

In the event that a DON activity discovers that it has overcharged a requester or a requester has overpaid, the DON activity shall promptly refund the charge to the requester by reimbursement methods that are agreeable to the requester and the activity.

§ 701.52 Computation of fees.

(a) It is imperative that DON activities compute all fees to ensure accurate reporting in the Annual FOIA Report, but ensure that only applicable fees be charged to the requester. For example, although we calculate correspondence and preparation costs, these fees are not recoupable from the requester.

(b) DD 2086, Record of Freedom of Information (FOI) Processing Cost, should be filled out accurately to reflect all processing costs, as requesters may solicit a copy of that document to ensure accurate computation of fees. Costs shall be computed on time actually spent. Neither time-based nor dollar-based minimum charges for search, review and duplication are authorized.

§ 701.53 FOIA fee schedule.

The following fee schedule shall be used to compute the search, review (in the case of commercial requesters) and duplication costs associated with processing a given FOIA request. The appropriate fee category of the requester shall be applied before computing fees.

(a) Manual search.

parts; individual time (hereafter referred to as human time) and machine time.

(1) *Human time.* Human time is all the time spent by humans performing the necessary tasks to prepare the job for a machine to execute the run command. If execution of a run requires monitoring by a human, that human time may be also assessed as computer search. The terms “programmer/operator” shall not be limited to the traditional programmers or operators. Rather, the terms shall be interpreted in their broadest sense to incorporate any human involved in performing the computer job (e.g. technician, administrative support, operator, programmer, database administrator, or action officer).

(2) *Machine time.* Machine time involves only direct costs of the central processing unit (CPU), input/output devices, and memory capacity used in the actual computer configuration. Only this CPU rate shall be charged. No other machine-related costs shall be charged. In situations where the capability does not exist to calculate CPU time, no machine costs can be passed on to the requester. When CPU calculations are not available, only human time costs shall be assessed to requesters. Should DON activities lease computers, the services charged by the lessor shall not be passed to the requester under the FOIA.

(c) Duplication.
